

June 30 2022 RESOURCE CENTER/LIBRARY RENOVATION & HVAC REPLACEMENT FOR P1/ P2 COMMUNITY FORUM

Resource Center

Question/Comment	Name	Response	Action
Was there interaction with faculty, staff, and students in developing the design?	Richard Weil	Suzette Spencer is the Director of Library and Information Services and is here to help answer this question. A few years ago we did a study to inform the college on staff and student needs' in a Library. We heard that the Library needs to be more open for the staff to observe students. This study has been the framework for designing the new space to fit student and faculty needs, and we confirmed this by assessing peoples' priorities for the space. Their needs are at the forefront of the process. As the work begins, we will communicate about library usage and making the swing space accessible. We are always willing to have a conversation and answer other questions.	Action: Suzette to connect directly with Richard Weil
When you place the units on the roof are you using the existing mechanical screening or new?	Richard Weil	We have already begun installing new screening. The units will be modern and make far less noise than previous ones. The screening will be placed around the new units themselves.	Action: Brad to follow up with Richard Weil on screening specifications
Thank you for taking the time to provide these updates	City Councilmember Peter Kovar	Thank you for your feedback
