| Question/Comment | Name | Response | Action |
| When will Samsung Flip monitors be installed? | Valerie Lantz | This is to be determined. The Samsung Flip Monitors will be will be one of the last pieces of equipment to be installed. | |
| Is it possible to get a copy of this presentation, or copies of the pictures of the labs particularly. | Dwayne Henry | All recordings of project Update Forums are uploaded to the project website. These can be accessed here https://mcblogs.montgomerycollege.edu/building-projects/ | |
| Is the windows problem solved? | Valerie Lantz | Work on the windows is progressing to prevent any further leaks. | |
| Will Faculty be able to access the building for training? | Valerie Lantz | There are no definite timeframes for this, but the College will be engaging staff for training programs. The college will have an internal meeting to map out timeframes for access and readiness for the Fall Semester. Follow up note: Yes, there is a moving plan and a coordination process with facility users that has just began. As department chair, Valerie will be involved. This is typically handled with department representatives, who coordinate the move within their department and are the liaison point with to facilities. Facility users will recieve further detailed instructions closer to scheduled moves. Chris Cusic, the Director of Instructional Technology is planning and executing tech training. | |
| When will this building be put into service | Bill Wood | As detailed in the schedule and presentation, the building will be open for Fall Semester 2024. | |
