Leggett Building			
Question/Comment	Name	Response	Action
What are the 3 fabric panels for in hallway in previous slide? Posting information?	Valerie Lantz	They are tack panels for bulletin board use.	
Just for clarity, has the AV/IT installations already started or will they be starting as part of the upcoming work?	Dwanye Henry	It has started, vendors are working to continue installation.	
Are the heating/cooling systems running, and will there be additional sound from these systems once they are running?	Paul Chrotowski	Heating and cooling systems have been running at normal capacity for several months.	
Is there internet?	Harold Williams	No internet yet. The installation of the wireless access points are in progress.	
Date for furniture installation in Leggett?	Valerie Lantz	To be confirmed. The College will continue to keep folks updated on installation dates and timelines.	
Craft equipment for student use was left in the library, where was it moved to?	Harold Williams	New equipment is being purchased for the physics and engineering shop.	
Library/Resource Building

I've seen commercial vehicles parked on Takoma Ave., it seems like they might be related to the Resource Center. I'm asking for better compliance and enforcement.	Paul Chrostowski	We are enforcing, we have parking passes for all construction vehicles. A Gilbane employee monitors regularly for enforcement and vehicles are not allowed onsite without them.	
Intolerable level of noise from machinery was measured with sound level meter. The College should have security detail to monitor.	Paul Chrostowski	Gilbane monitors the noise levels. There have been other construction projects in the neighborhood.
